SUMMARY

Associate Technical Consultant delivering Salesforce development, enterprise integrations, and service automation. Hands-on experience with bulkified Apex, Lightning Web Components, MuleSoft, and Agentforce, including independent implementation and collaborative testing and troubleshooting.

TECHNICAL SKILLS

Salesforce Development: Apex, LWC, JavaScript, triggers, SOQL/SOSL, Flows, Batch/Queueable Apex, Visualforce (basic)

Clouds: Sales Cloud, Service Cloud, Experience Cloud, Marketing Cloud Advanced

Integration: REST APIs, Connected Apps, Named Credentials, External Credentials, OAuth 2.0

Middleware: MuleSoft flows/connectors, transformations, Anypoint Studio, Anypoint Platform

External Systems: Stripe, PandaDoc, DocuSign, Clay

AI and Data: Agentforce service agents/actions, Data Cloud DLO/DMO mapping, segmentation

Tools and Delivery: Git/GitHub, Salesforce CLI, VS Code, Postman, Jira, Apex testing, Nebula Logger

Programming and Web: Java, JavaScript, TypeScript, Python, C++, HTML/CSS, React, OOP, DSA (academic foundations; JavaScript used professionally in LWC)

Backend and Databases: Spring Boot, REST, PostgreSQL, JPA, Flyway, JUnit (ReliableJobs); Node.js/Express, FastAPI, SQL/MySQL, MongoDB (academic/internship foundations)

PROFESSIONAL EXPERIENCE

Associate Technical Consultant | Blueflame Labs | July 2025 - Present

Initial training from July 2025; Salesforce/MuleSoft implementation work since December 2025.

- Built and enhanced LWC forms and quote builders; debugged component behavior with browser developer tools and investigated Flow-related Apex test failures.
- Configured access controls and authenticated integrations; tested callouts and asynchronous Apex, added Nebula Logger to Apex/Flows, and deployed dependency-based metadata changes.
- Independently delivered assigned implementations and collaborated with other developers on LWC testing, Flow investigations, and permission-set troubleshooting.

WORK EXPERIENCE

Territory Assignment and Division-Based Automation

- Extended territory assignment using supporting custom objects, bulkified trigger handlers, Batch Apex, and Queueable Apex; enabled manual entry through Screen Flow.
- Propagated account changes to opportunities, updated account teams, and populated role-specific fields using territory membership and division-based logic.

Enterprise Integrations and Document Workflows

- Built, tested, and deployed MuleSoft flows connecting Salesforce, SFTP, and external applications; implemented transformations/authentication and diagnosed failures using Anypoint logs.
- Implemented a Stripe invoice REST handler and receipt workflow; configured PandaDoc template synchronization, DocuSign document/signature workflows, and Clay data exchange.

Agentforce Service Agent and Case Automation

- Built and tested a service agent with Flow-based email verification, embedded messaging, Omni-Channel routing, and multiple subagents for different support use cases.
- Implemented case creation for verified and unverified users and linked Messaging Sessions to related cases.

EDUCATION

B.Tech., Computer Science and Engineering | Noida Institute of Engineering and Technology | 2025

Class XII | Kunwar Convent School | CBSE | 2020

Class X | Holy Cross School | ICSE | 2018
